Commercial intelligence for constrained power

GRIDLENS

Real power. Real projects. Before they become obvious.

Owner board: October 23, 2026. Seven printed sRGB labels; Sora and Inter typography.

Exact G/L contours, flat segmentation and outlined wordmark require owner review.

This PDF accompanies GRIDLENS_BRAND_GUIDELINES.md; it is not a visual approval.

One symbol / four treatments

GRIDLENS / VECTOR REVIEW

CANDIDATE - OWNER FIDELITY APPROVAL REQUIRED

LIGHT

DARK

ONE INK

Review: rounded return, diagonal boundary, hidden-L continuity, wordmark spacing.

Flat color interpretation of shaded reference; not an approved replacement master.

Seven colors / accessible application semantics

Harbor Navy
#0B1F33

Deep Slate
#23384C

Slate Steel
#607F88

Sea Cliff
#6E909A

Driftwood Gray
#A9B4BC

Fog
#E8ECEF

Graphite
#1E2A33

White is a neutral surface. Graphite/Deep Slate text; navy buttons with white labels.

Status exceptions are paired with text. No universal CMYK or Pantone equivalents claimed.

Typography / production / release control

Sora — Display & headings

Inter — Interface, tables, body, labels and data

Wordmark: outlined Inter Light reconstruction; exact lettering still needs confirmation.

Keep 0.2 symbol heights of clear space; minimum symbol 24 px / 10 mm print.

Embroidery: one ink, 34 mm minimum; stitch-out required for narrow diagonal.

Templates use millimetre canvases. Obtain vendor bleed, dielines and material proofs.

Do not stretch, rotate, add gradients, separate the L or use historical identity assets.

Regenerate from tokens + SVG master; inspect asset manifest and browser captures.

No final vendor release or merge before owner logo-fidelity and application acceptance.

See the Markdown guidelines for the complete asset index and reproducible commands.
